Healthier Home Date

Thursday Evening**
 September 22, 2011
 6:00 PM

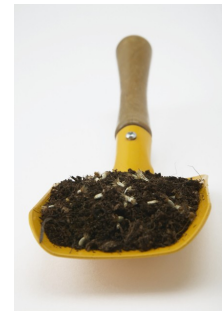

****Arrive Early for the Edgmont Farmers' Market at PRC!****

**Thursdays 3-7 PM
 July - October**

Backyard Composting Workshops

Learn how to turn your yard waste and food scraps into a valuable resource for your garden! This workshop thoroughly covers the importance of composting, setting up a compost pile, proper pile maintenance and how to use finished compost. Each participant or couple will receive an Earth Machine Compost Bin with attendance.

Cost: \$35 per person/\$45 per couple

Worm Composting Workshops

Worm your way into composting with one of nature's most efficient recyclers, the earthworm! It's easy, fun, odorless and produces a great soil additive. Class participants will learn how to house, feed, harvest and care for their own worm composting bin. Each participant or couple will be provided with a bin, instructions and worms.

Cost: \$35 per person/\$45 per couple

Tips for a Healthier Home

Did you ever wonder what toxins may be lurking in your house? We are exposed to a number of different chemicals and toxins in our home on a daily basis. This presentation will explore the most common home toxins and teach you how to create a healthier environment in your house.

Cost: \$5.00 per person

All Classes are held at Pennsylvania Resources Council
 3606 Providence Road ~ Newtown Square, PA 19073
